

YICHUN LIU

Award-Winning Product Designer Driving AI-Powered Design Across
Global Enterprise & Consumer Finance

EXPERIENCE

Experience Designer Senior Associate

Apr 2026 – Present

J.P.Morgan Chase

New York, NY

- Led end-to-end redesign of Loan Request App 3.0 across USPB, EMEA, APAC, and LatAm, achieving a 30% improvement in UMUX-Lite usability scores and 12% increase in analyst and banker adoption, directly reducing NIGOs.
- Owned IA and interaction design for the Lending Workspace, establishing a unified hub for Private Bank lending tools serving Advisors globally.
- Redesigned the Credit Questionnaire across PDF and digital workflows for JPMSE's ECB-regulated SBL process — eliminating manual re-keying into credit grading systems and digitising data onto structured rails, targeting ~3,000 hours in annual savings across ~1,945 credit applications.

Senior UX Designer & Team Lead

Apr 2025 – Apr 2026

Otis Elevator Co.

New York, NY

- Led and mentored a team of 5 designers across 10+ cross-functional initiatives spanning product, engineering, and external partners.
- Drove product design for EMS Panorama™ 2.0, a real-time web-based elevator management platform, reducing task time by 70% and error rates by 45%.
- Conducted 30+ usability tests to validate design decisions and sharpen workflow clarity; translated findings into data-driven insights that shaped multi-year roadmaps and org-level strategy.

Product Designer

Oct 2021 – Mar 2025

Kellton | Clients: BCG, Best Egg, Sallie Mae, etc.

New York, NY

- Owned 0-to-1 product design as the sole designer across fintech and enterprise products, partnering with product, engineering, and marketing to ship cohesive experiences.
- Designed scalable enterprise tools for Boston Consulting Group (BCG) that improved operational efficiency and generated \$2M+ in revenue.
- Redesigned Best Egg's customer servicing platform for 420K+ users, consolidating loans, cards, and financial health services into a unified experience and driving a 328% increase in user engagement.

UX/UI Designer

Jan 2021 – Aug 2021

ClinicMind | HealthTech SaaS

New York, NY

- Designed core EHR, Patient Portal, and Practice Management interfaces from clinical workflow research, partnering with engineering in Agile sprints to ship provider-facing features.

Product Designer

Apr 2018 – Aug 2019

China-Italy Industrial Design Co., Ltd.

Changsha, CN

- Led strategic e-commerce redesigns from concept to launch for Chinese and American audiences, using A/B testing and analytics-driven experimentation to increase conversion rates by 25%.
